

2020 ARHF Jupiter Locals Reef

The Andrew "Red" Harris Foundation (ARHF) is a 501c3 non-profit. We will match donations up to \$25,000 for construction of the "2020 ARHF Jupiter Locals Reef" to encourage local residents to contribute to the construction of a beautiful new reef for the benefit of all who enjoy our local marine environment.

The reef will be made with huge 3 ton 4' x 6' boulders deployed in a pile a mile off the Jupiter inlet in 60 feet of water. This will be the 11th boulder reef the Andrew "Red" Harris Foundation has built in partnership with Palm Beach County Environmental Resource Management, the Army Corp of Engineers artificial reef construction permit holder. We have also built and deployed over 600 of our 4 ton "Coral Head" and "Hollow Boulder" modules that we designed.

The ARHF donates materials we construct (our 4 ton "Coral Head" modules), or boulders that we purchase to Palm Beach County. The county contributes towards the cost of the offshore deployment, places the reefs on permitted north county sites off Jupiter and Juno Beach that the ARHF selects and manages the process from trucking through deployment.

If we raise \$25,000 it will be a 250 ton 14' tall, 60' diameter reef structure with deep passageways for large fish and smaller protected areas for small fish. If we raise \$50,000 we will build a 500 ton 20' tall, 90' diameter reef structure. That would be an amazing sight!

We will be giving donors a beautiful long sleeve sunshirt with our logo on the chest and the "Red's Ride East" Jupiter Inlet at sunrise artwork, or our logo on the back. The byline will read, "Jupiter Locals Reef 2020 Donor" to recognize your support of Jupiter's marine environment.
